

Logo package

Louis-Hansens Fond

AAGE OG JOHANNE
LOUIS-HANSENS FOND

About this guide

This PDF is an overview of the available logos in the Louis-Hansens Fond logo package. The logos may not be copied directly from this guide, instead they should be taken from the various folders in the logo package.

Note

The logo is available in black and in white. The colours may not be changed.

The Louis-Hansens Fond logos are available in a number of different file formats and colour spaces.

The EPS files serve as originals and should always be used for high resolution print. In case a different file format or a pixel based logo is needed, the new file should be created from the EPS file, if the size, format or colour space is not among the available files in the logo package.

PNG and JPG files are intended for Office documents (mainly PowerPoint and Word) as well as for web. They are quite big and can be scaled down to the wanted size. Please note, the logos might require pixel optimization when used in very small sizes.

Please also note, all PNG and JPG files are made in RGB. If needed, grey scale logos can be created from the available EPS files.

To work professionally with the content of the logo package, you need software as mentioned below:

Adobe InDesign CC, CS6, CS5, CS4 or CS3, and/or
Adobe Illustrator CC, CS6, CS5, CS4 or CS3, and/or
Adobe Photoshop CC, CS6, CS5, CS4 or CS3.
